Media Access Solutions

Media Access Solutions

Accuride now offers a range of products for home entertainment or commercial applications that provide easy installation and set up of media equipment for maximum access.

MEDIA ACCESS CENTRES

The Media Access Centre (MAC) is based upon a heavy-duty swivel assembly that provides easy access to consumer and commercial electronic equipment. The MAC hardware is easily integrated into the cabinet for customised media installations.

- Full 50cm travel
- Unit swivels 90° in both directions
- Hold-in and hold-out feature
- Cable management included

The complete shelving system can be rotated for access to the back of the equipment

DBMAC-50

- Bottom swivel assembly only
- Load rating up to 68kg
 - Shelving units 52cm wide x 45cm deep and up to 91cm tall

DBMAC-100

- Includes top and bottom swivel assemblies
- Load rating up to 136kg
 - Shelving units 52cm wide x 45cm deep and up to 140cm tall

TV SWIVELS

The growing trend for larger televisions and for flat panel systems brings with it the need for strong, specialised mounting hardware.

Optional bracket kit for flat panel mounting

DB9320-0258TV

The flat panel, widescreen TV swivel is designed to safely handle larger televisions up to 65 inches/ 1651mm wide* and 147kg.

- 558mm travel
- Swivels 30° in both directions

DB3620-0258TV

A smaller TV swivel is also available for TVs up to 36"/914mm wide* and 100kg.

*Televisions are measured diagonally
