3832TR and 3832HDTR

Touch release

3832TR and 3832HDTR – Touch release

The 3800 range has been extended with the introduction of the 3832 Touch Release and Heavy Duty Touch Release telescopic slides. These products hold drawers or roll-out shelves in a closed position until activated by touch. Pushing on the drawer front opens the drawer – no need for handles or knobs.

Applications

Designed for domestic and commercial projects, furniture and equipment or for medical and educational environments, applications where the aesthetic appeal of a plain drawer front is desired, or applications for end-users who have difficulty grasping handles to open drawers.

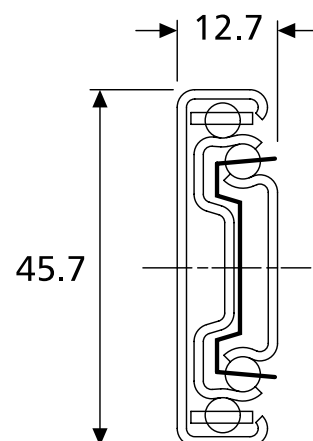

Opening mechanism activated by 2mm (+1-0) inward travel

Opens drawers approximately 50mm-125mm from the closed position

Features & benefits

- Load rating up to 45kg (80,000 cycles)
- 100% extension
- Hold-in feature keeps drawers closed
- The force to activate the standard version is approximately 50 Newtons.
- Model 3832HDTR has a stronger pull-in force for heavy mobile applications. The force to activate the heavy duty version is approximately 80 Newtons.
- Compatible with inset and overlay drawer fronts
- Elimination of drawer handles provides an aesthetic, streamlined look to cabinets.
- Front disconnect
- The Cam Drawer Adjust offers installers a simple, yet precise mechanism for vertical drawer adjustment
